PROPOSED AMENDMENT

Serial No. 09/627,559

Examiner Bernard Souw

Art Unit 2881

C3
Conc'd

wherein each of said plurality of structures has a plurality of sides,
wherein each of said plurality of sides corresponds to one of said plurality of
primary light sources, and
wherein each of said second plurality of raster elements is arranged on one of said
plurality of sides.

REMARKS

Applicants amended the specification as suggested by the Examiner.

Claim 48 is amended with respect to its dependency. The recital of new claim 63 is similar to the recital of allowed claim 48, and the recital of new claim 64 is similar to the recital of allowed claim 50. Thus, no new subject matter has been added.

Since this amendment neither raises new issues nor requires further consideration, entry is respectfully solicited.
